ABSTRACTED-PUB-NO: US20020017522A
BASIC-ABSTRACT:

NOVELTY - The container body (11) has an upper member (27) provided with a takeout port (24), and a side member (13). The cover (23) is fixed to the side member (13), so that the size of the cover can be increased. The container body being provided with a locking projection (33) engageable with a locking member (32) of the cover.

DETAILED DESCRIPTION - The container (10) comprises a container body (11), and a cover (23) fixed pivotally to the container body. A bottom cover (12) seals a lower opening of the container body. A plate rubber (50) is provided on a pivotable portion between the container body and the cover.

USE - As an openable container.
